

# HOW MUCH DOES LOCKDOWN COST YOUR BUSINESS

Essential questions  
you need to ask.

(AS OF OCTOBER 2021)

## Get educated. Know your rights.

- ▶ How much does a lock down cost your business each day?
- ▶ Did you know mandating a vaccination on an employee now makes YOU liable, not the government?
- ▶ Did you know that in the event of a vaccine injury of one of your employees, you are responsible for LIFELONG compensation?
- ▶ Are you participating in medical apartheid?
- ▶ Is it worth the cost?
- ▶ Why do you still have to wear a mask and social distance, even after you've had the vaccine?
- ▶ Why haven't you ever had to wear a mask and social distance for other vaccines such as tetanus, measles, mumps and polio?
- ▶ What is the point of getting vaccinated if you can still spread the virus?
- ▶ Why have popular holiday destinations (such as Byron Bay) had very few positive cases, despite minimal lockdowns and low vaccination numbers?
- ▶ Why are doctors, nurses and paramedics choosing to leave their careers over getting the vaccine?
- ▶ Why are the establishments bribing you with holidays, cash prizes or frequent flyer points if you get vaccinated?
- ▶ Why are many millions of dollars being spent on vaccine campaigns across all platforms?
- ▶ Why has there been a sudden increase in cardiac issues, neurological disorders, blood clots and more?

- Why, for the first time in history, are the pharmaceutical companies that manufacture vaccines completely exempt from liability?
- Why is it now acceptable for children as young as twelve years old to supersede their parents consent and choose to get vaccinated?
- Why do healthy people need testing if they're not showing any symptoms?
- Why are so many doctors, health care professionals, police and scientists being prevented from asking questions and sharing their concerns?
- Why is information being censored and removed from the internet and social media?
- Why are you being threatened with the use of force by the Government, employers, police and military for a vaccine?
- Why is this vaccine roll-out being used for political gain?
- Why is there such inconsistent information about the safety of the vaccines between different countries as well as in Australia?

- Why are you now being discriminated against by not being allowed to travel and access basic services, yet it has never been a problem with other vaccines?
- Why are close friends and families suddenly being divided and relationships breaking down?
- Why is your job and your livelihood being threatened by this vaccine when they haven't for previous vaccines?
- Why have we never before seen a vaccine become the cause for such extreme discrimination, division and judgement throughout society?
- Why does this vaccine NOT do the one thing that vaccines are supposed to do – prevent the spread of the disease?

So why would you continue to support a corrupt agenda and wilfully contribute to the downfall of the economy, not to mention YOUR business and the disintegration of YOUR RIGHTS? The solution is simple – **STAY OPEN**. Our community thrives when YOU thrive. We need you to **STAND UP FOR YOUR ESSENTIAL BUSINESS**.

## Get educated. Know the facts.

Remember, mandates and directives from the Government or any other authority are **NOT LAW**. Our natural rights are actually enshrined within Natural Law and Common Law, which have been used to govern and keep peace in communities since earliest civilisations. Bodily sovereignty is one of these rights. **Most of Australia's media is owned by two corporations.**

So try and seek out independent sources of information and use alternate search engines, eg: DuckDuckGo and Ecosia. Do your own research. Think critically and without bias. Ultimately, our actions will create the reality we live in.

# ESSENTIAL INFO FOR EMPLOYERS, EMPLOYEES & CUSTOMERS

Get educated now. Know the facts.

## EMPLOYERS

- Send Letters to State Premier, Chief Health Officer and Local MP.
- Take steps 1 & 2.
- Obtain responses where they confirm that you have NO exemption.

**Step 1:** Ask for a copy of an exemption from giving medical advice to your staff and/or customers, suggesting they get vaccinated for COVID-19, because the vaccines have not yet completed long-term trials.

*Parliament is placing inappropriate responsibility on employers, especially in NSW. If you make vaccination a condition of work for your employees, YOU could be liable if they experience an adverse reaction. It is not your responsibility to enforce vaccinations.*

**Step 2:** Ask for a copy of an exemption from the Privacy Act, exemplifying you from enquiring about your staff and/or customer's private medical information and intervening in the doctor patient privilege.

Over the last eighteen months, mandate related fines have been quickly adjourned or dismissed in court. All fines can be challenged. The more business owners that know their rights and exercise them, the more chance we have of overcoming this tyranny.

## EMPLOYEES

**Step 1:** Ask your employer to provide you with a copy of the legislation that:

- a) authorises them to enquire about your vaccination status, and
- b) requires you to personally get vaccinated.

Note: There is only legislation relating to particular facilities (as listed in the 'Directions' from the state government). For all facilities outside of those listed, there is nothing in the legislation that gives your employer any authority to ask your vaccination status, or to require you to get the vaccination. Nor is there anything in the legislation that gives them authority to fire you. They can TEMPORARILY stand you down or temporarily stop you from entering the facility but there is no legislative framework for them to fire you.

**Step 2.** You can access and download a letter template via the link below. Copy and personalise it and attach documents if you can.
